

### **JOSE RAMON RODRIGUEZ**

José Ramón is a lecturer in Management of Information Systems and Business Intelligence at the Universitat Oberta de Catalunya (Open University of Catalonia), in Barcelona (Spain). He runs the Master in Business Intelligence (MBI) and the Business Intelligence and Big Data programs of the University, leading the Spanish speaking markets. The recent UOC Business Intelligence MOOC, with MiriadaX, engaged 20000 students in more than 50 countries. (Please see: [www.business-intelligence.uoc.edu](http://www.business-intelligence.uoc.edu)).

José Ramón is also IT Strategy advisor of the UOC University and works as independent consultant.

He has been deputy Managing Director and Chief Information Officer of the Barcelona City Council and CIO of the Basque Country Health Authority. He chaired the e-Government group of Eurocities (the major network of European cities) and of the International Association of Latin American Cities).

José Ramón has also been a partner and Industry Practice Leader at PricewaterhouseCoopers (currently IBM) and Ernst&Young (currently Capgemini), working primarily for Government and Healthcare industries. He led the e-Health Transformation global program of PwC Consulting.

Author, speaker and blogger. He has recently published *Usos Estratégicos de las TIC* with Oberta Publishing. You may follow him at <http://informatica.blogs.uoc.edu/author/jose-ramon/>).
